

Who are **Fleet Factors**?

Fleet Factors is one of the largest independent wholesalers for vehicle parts, refinish products, and PPE in the UK. The company was founded in Teesside in November 1975 as a family-run business. We have now expanded across the UK with 28 branches, over 200 Stores Management sites and over 300 employees nationwide. Fleet Factors have acquired several independent companies over the years with one of the latest acquisitions to join the Fleet family being TVC Supplies.

We pride ourselves on being flexible, committed to putting our customers first, understanding their needs, and helping them to operate smoothly. We do this by supplying a wide range of quality products supported with the highest standard of customer service.

Fleet Factors also offer a large range of additional products including janitorial and cleaning products, welding supplies and AdBlue. We have continued to develop our portfolio of products over the years staying ahead of the competition by offering exceptional service, continuing to develop the skills of all staff members and having excellent health and safety procedures in place.

Fleet Factors has always endeavoured to continually improve and develop our customer service levels. This was evidenced when we were the first company in the industry to roll-out our Stores Management service to blue-chip companies and councils. The service allows Fleet to assist or run a body shop or stores facility for our client enabling the customer to focus on their main priorities. We aim to be a seamless extension of your business, providing in-depth knowledge and time-served experience.

Our History

Fleet Factors has a detailed history stretching over 45 years, with Mike Hunter starting the company in 1975. Fleet Factors started by making its first sales visit to BP followed by other high-profile companies such as ICI, and British Steel shortly after. The experience of fleet factors dedicated staff and the support from our key suppliers, allowed us to branch out to Sunderland, Tyneside, and Leeds by 1990. We now have nationwide coverage with over 300 employees in 28 branches and over 200 Stores Management sites established. We continue to expand, grow, and improve our sites year on year striving for excellence and the provision of quality service to our customers.

Stores Management

Tailor made to your business Fleet Factors Stores Management System is the most effective way for companies to control their costs with zero inventory and full data capture at source. It is the choice of many large, progressive customers and blue-chip companies, who benefit from our expertise in this market.

Developed from a total 'Business Support System' for the motor factoring and distribution market Fleet IT has developed a secure, fast, and easy to integrate IT control system for any busy parts distribution business.

Continuous development and cost reduction are key to a successful partnership with clients whose businesses can benefit from this process. Specific client requirements can be built into the electronic interface and each system is bespoke to individual client needs and processes.

Stores **Management**

Electronic Catalogue (E-Cat)

As part of our Stores Management Solution, Fleet Factors will implement an Electronic Catalogue (E-Cat) that is profiled to your fleet of vehicles and assets. Our in house team of developers enable full interface between the Fleet Factors system and our customers Fleet Management System (FMS) allowing bi-directional flow of information and automatic updating of job cards when parts are booked. This process reduces administration and enables high quality data capture that we in turn report in our Management Information.

Barcode Scanners (PDA)

To further support our Stores Management Solution, Fleet Factors implement barcode scanners to enable technicians to scan their own parts to jobs that they are working on. Parts held in the stores location are barcoded, bin located and have min / max levels set to ensure maximum availability at all times. When parts are added to the stores facility, the on-site barcode printer can be used to print the required code and add them into the stock holding.

Commercial Vehicle, Trailer & Automotive Components

Fleet Factors has been built based on our excellent customer service and considerable technical knowledge whilst offering a huge range of OE and aftermarket parts direct from manufacturers.

We can offer a full range of wholesale supplies of truck and trailer parts (and more) to haulage companies across the UK. We also stock an extensive selection of car parts from several high-quality brands and can advise which component or part best suits your needs. All parts from our comprehensive car parts range, from suspension and brake pads to batteries and bulbs, are supplied with full support and manufacturers guarantees.

Our range includes:

Air Springs

Batteries

Brake Calipers

Brake Discs

Brake Pads

Automotive **Refinish**

Fleet Factors are key distributors of car, van, LGV, HGV and PSV Refinish Products. Industrial Coating products and systems are available to the large user in specialist finishes as well as the general coatings market. With nationwide distribution and sales sites we offer our customers a high level of service, quality, choice, training and technical support. Our customer service team will be happy to help with any enquiries.

We also offer paint mixing schemes and ready-mixed paint to meet the demands of the busy shop or smaller coatings business. We also offer a range of lacquer and aerosols within our UPD range.

Fleet Factors are the founding members of UPD corporation (www.upd.co.uk). This incorporates other independent distributors across the UK so that national group deals can be offered to the fleets and franchise dealers ensuring national benefits coupled with local family business service and support.

PPE & Embroidery

Working directly with major manufacturers such as Portwest, Uneek and Leo Workwear we can supply a comprehensive range of workwear, uniform and PPE. The extensive product range available has been compiled to ensure we can cover all needs, providing your workforce with good quality, functional garments at competitive prices within agreed timescales.

At Fleet Factors we understand that your staff and their safety are your main priority. However, we acknowledge that how your team looks is a direct reflection of your company branding and corporate image. With this in mind, we offer high quality garments from leading manufacturers to which we can add any company personalisation, branding and logos. We supply personalised items from our in-house embroidery and garment printing service ensuring that your people always look their best whilst wearing quality, fit for purpose, protective clothing and accessories.

Our in-house embroidery team provides a full process service ranging from logo origination to completion of garments with both embroidery and heat seal logos. Managing this process end to end ensures garments of the highest quality are produced consistently.

Our range includes:

Boots

Gloves

Headwear

High-Visibility

Jackets

Overalls

Rainwear

Shirts

Trousers

PPE & Embroidery

One Stop **Solution**

We are one of the leading suppliers for cleaning materials and janitorial supplies offering an extensive range of cleaning implements and products. We also supply personal sanitation products including skin care/hygiene items, industrial wipes and paper products.

Fleet Factors dedicated team of professional buyers and account managers can quickly assist in finding the products you need at competitive prices. Combining essential purchases through one account Fleet can save time and money (particularly in administration costs). In line with the Control of Substances Hazardous to Health (COSHH) Regulations 2002 we provide information on the risks that arise from the use and storage of any hazardous substances that we supply and any control measures that might be needed to control those.

Quality, Health, **Safety & Environment**

Health and Safety, as well as responsible environmental processes, are incredibly important to a company as large as Fleet Factors. It is of particular importance given the wide range of chemical products carried at most of our depots. We pride ourselves on the hard work and dedication our staff members put into achieving and maintaining our company's accreditations.

Some of the current accreditations include:

ISO9001, ISO14001, ISO45001, Mindful Employer, National Hardhat Recycling, Two Ticks, SafeContractor and SEDEX.

We recognise that the health and wellbeing of our employees is as important as their physical health and are a Mindful Employer Plus provider.

Contact us to request an MSDS or to ask any specific questions regarding Fleet Factor's health and safety and environmental policies.
